SECRET/CONTROL/US OFFICIALS ONLY 25X1 - 2 -(2) 25X1 As information from Bernau indicated that the 11th Gds AT 25X1 Arty Brig of this army from Olympisches Dorf, Doeboritz, would move into the former German Heeresbekleidungsamt, on Schwanebecker Strasse, 25X1 Bernau, the train is believed to have carried billeting equipment of the brigade. 25X1 elements of the 312th Gds RL Regt of the Fourth Gds Necz Army were unloaded in Eberswalde: the shipment 25X1 probably came from Lieberose. 25X1 the last entries on tank shipments from the U.S.S.R. were dated 9 September 1952. 25X1 . The arrival of other tanks has been assumed previously. However, 25X1 for the first time, rocket launchers and armored scout cars have been on the trains. As the heavy weapons that arrived in Bastern Germany in August 25X1 and the first weeks of September were primarily destined for the VP divisions under activation, it is conceivable that the rocket launchers and 25X1 armored scout cars are also earmarked for the Volkspolizei. [

such weapons are on the T/E of the Volkspolizei.
